

SUPER 60% DISCOUNT SALE

60% discount on selected Acros Organics building blocks

Extensive discounts are currently available on over 600 Acros Organics building blocks for discovery chemistry.

The Acros Organics brand offers a comprehensive portfolio of organic building blocks to meet the evolving needs of chemists in the fields of R&D and drug discovery. A heritage of quality, packaging innovation and new product development has made Acros Organics the brand scientists trust for their organics and fine chemicals needs.

Our expansive collection of off-the-shelf building blocks are key tools for the discovery chemist, with a broad range of chemically important ring systems, including many heterocyclic compounds. These products also feature a wide variety of functional groups for ease of synthesis.

Find the products you need online with the structure search tool

The screenshot shows a web-based chemical structure search tool. At the top, it says "Find chemicals by structure or substructure:". Below this is a toolbar with icons for clearing (CLR), deleting (DEL), drawing rings (D-R), adding (A), undo (UDD), and redo (JME). A vertical menu on the left lists elements: C, N, O, S, F, Cl, Br, I, X. The main drawing area contains a chemical structure of a bicyclic compound with two oxygen atoms in a ring system. Below the drawing area, there is a copyright notice: "This Java Applet was realized by Peter Ertl from Novartis Crop Protection AG". At the bottom, there are two buttons: "Exact Search" and "Substructure Search".

Callouts from blue boxes:

- Left box: "Find all products that match the structure you require exactly" (points to the "Exact Search" button).
- Right box (top): "Draw the structure or fragment of structure that you require" (points to the drawing area).
- Right box (bottom): "Find all products that contain this structure" (points to the "Substructure Search" button).

*Offer valid in Austria, Belgium, Bulgaria, Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Hungary, Israel, Italy, Ivory Coast, Jordan, Kuwait, Latvia, Lebanon, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Russia, Saudi Arabia, Slovakia, Slovenia, South Africa, Spain, Sweden, Switzerland, Turkey and United Kingdom for orders placed between 1 November 2016 and 31 March 2017 in connection with the products listed.
